Mother's Day celebrates motherhood; lets appreciate the mothers and mother figures in our lives.

**My favorite: My mother taught me about justice. "One day you'll have children, and I hope they turn out just like you. Then you'll see what it's like!"

**Becoming a mother makes you realize you can do almost anything one-handed.

**A mother is always a person you can call to see how long the chicken lasts in the fridge.

**We can't all look good, it's me, the kids or the house!"

**Mama tried, she really did!

Ah-MAY-Zing!

We're moving into summer and we're pretty excited about it! Festivals, fairs, outdoor concerts and activities of all kinds jam-pack the calendar over the next several months.

May brings blue skies and warming sunshine to the horizon. Be sure to stop by and see us; we promise you will find a wealth of information to plan your recreation time this summer! May also brings us both Mother's Day and Memorial Day and we would be remiss if we didn't mention the importance of shopping locally. May is also National Bike Month. Regardless of whether you prefer the motorized kind, the pedal kind, two, three or even four wheels; it's a time to celebrate our wonderful sport. Always check our website for upcoming events and fun things happening during each month.

RC Campfire Rule #25. No Bonfires are permitted. Small cooking or campfires are permissible only when the Fire Warden deems conditions are safe. **Adequate water supply must be kept on hand for extinguishing purposes. No fire may be left unattended at any time. All fires must be extinguished prior to your departure (including riding!).** No tires, oil containers, plastics of any sort or garbage from campsites are to be burned.

TIP OF THE DAY

Baking Soda?

Eliminate the gaseous side effects of baked beans by adding a dash of baking soda while cooking.

Keep cauliflower white and its odor under control when boiling or steaming by adding 1 tsp of baking soda to cooking water.

Add a pinch of baking soda to the water when boiling cabbage to tenderize and avoid overcooking.

A pinch of baking soda thrown into potatoes while mashing will make them fluffier.

Test the freshness of baking soda by pouring a small amount of white vinegar or lemon juice over 1/2 tsp of baking soda. If it doesn't actively bubble, it's too old to use.
