### TIP OF THE DAY

**What Scents Do Stink Bugs Hate?** One of the best stink bug repellents is essential oils and aromas these pests aren't fans of. While stink bugs themselves are smelly creatures, scents we consider pleasant aren't well-received by these pests. So, what essential oils do stink bugs hate? Clove oil, lemongrass oil, spearmint oil, and Ylang Ylang oil are a few of the essential oils stink bugs find themselves shying away from. Other popular scents that repel stink bugs from your home are different types of dryer sheets. **What Plants Do Stink Bugs Hate?** When it comes to plants that repel stink bugs, oddly enough, the smellier the better. Plants like lavender, garlic, and catnip are among some of the best options for keeping stink bugs away from your home. Plant these nearby and most insects will avoid paying you a visit.
